### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Kondoudis on 07/08/05.

The application has been amended as follows:

Claim 13, in line 1, delete, "code" and insert, -code stored on a computer readable medium-.

The following is an examiner's statement of reasons for allowance: Claims 1-4, and 6-13 are allowed as the prior art does not teach or suggest the applicant's invention. Claims 1, 4, 6, 7, and 13 teach a method and apparatus for preventing an adjacent track erase. Regarding claims 1 and 6, the distinguishing elements of the claims teach if an ambient temperature exceeds the threshold temperature, determining a position of the magnetic head and adjusting an intensity of a write current according to the position of the magnetic head; if the overshoot value exceeds the stored overshoot value, adjusting the overshoot value of the write current. Regarding claim 4 the distinguishing elements of the claim teaches the controller repeats an N-time writing operation M times via the magnetic head to which the write current is applied, wherein N and M are natural numbers. Regarding claims 7 and 13, the reasons for allowance were given in the previous office action.

Art Unit: 2651

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
